
***Playing Drill 1: Precision Marking the Ball Prior To Lifting
(Marker/Trainer)***

Objective: To ensure you never accidentally mismark the ball, avoiding disputes and/or penalty strokes.

Step 1: Slide the Marker/Trainer under the golf ball until the ball touches the center point and the legs form a cradle around the ball.

Step 2: Lift the ball for cleaning (or for other purposes).

Step 3: Replace the ball inside the cradle with the ball touching the center point.

Step 4: Using the side legs, pick up the Marker/Trainer or complete Playing Drill 3.
