
***Playing Drill 2: Accurately Replace the Ball After Moving at
Request of Competitor (Marker/Trainer)***

Objective: To accurately reposition the ball when asked to move it by an opponent. When properly placed it shows (reminds) you the specific direction where the ball was, avoiding disputes and/or penalty strokes.

Step 1: Using your putter head for measurement, move your ball in the direction requested by your competitor. Replace your ball with the Marker/Trainer.

Step 2: Rotate the Marker/Trainer so that the legs point back in the direction the ball was moved.

Step 3: After competitor has completed their stroke, replace the ball back on the green the same distance from the Marker/Trainer as before, and in the direction as indicated by the legs of the Marker/Trainer.

Step 4: Pick up the Marker/Trainer or complete Playing Drill 3.
