
Practicing Drill 1: Golf Swing with Any Club (Marker Only)

Objective: To improve and maintain (stay sharp) your golf swing year-round on grass of similar height to golf course grass, or on an artificial grass mat in/outdoors at home/work.

Instructions

Step1: Place the Marker, with rounded top facing the rear.

Step2: Visualize the rounded top as the back of an imaginary golf ball.

Step 3: Take your normal golf swing.

Note: If the imaginary ball is hit "fat" or "thin", it will not go anywhere. If the imaginary ball is hit correctly, it will fly 3-4 feet.
